³ **Rights-based approach (RBA)** is extensive in scope, encompassing fundamental social, economic and cultural human rights and liberties, including animal and environmental rights. Rights-based action includes all the conducts and actions focused on the development of rights; from lobbying and advocacy, enabling the recognition of a right, to the provision of emergency action plans for people deprived of a right. Rights-based approach (RBA) is based on the universality and indivisibility of human rights and the principles of inclusion and participation in decision-making processes; non-discrimination, equality and equity; transparency and accountability. The approach is based on the identification of 'rights-holders' and corresponding 'duty-bearers' in specific contexts, and the promotion of their capacities to claim their rights and fulfil their duties respectively.
